The city of dreams, Dubai, is at the helm of new beginnings and newer prospects for a better lifestyle.

With a remarkable win at the EXPO 2020 bid, this international city is steering ahead for a glorious reception of people from around the world. While this cosmopolitan city is home to some of the world's most iconic architectural marvels such as Burj Khalifa and Burj Al Arab, it will now host world participation at the most talked-about trade summit.

This is certainly an interesting time to be in Dubai as the city prepares for what could potentially be the biggest game-changing moment after the Dubai Shopping Festival.

Welcome to a success story that is Dubai.

The Inspiration

Standing on the forecourt of life, there's very little that actually matters to us. The sun. The birds. The people. The sound of water. And a good book may be.

The yearning to breakaway from the clockwork of our everyday lives has only drawn us closer to nature. And this difference between merely existing and living is what makes all the difference. A reason enough to be inspired and watch life as it happens.

A life full of colours and lights. Of space and liberation. Of water and tranquility.

A life by the bay.
